HAVAS' AGENCY

London, 18th

The apprehended conflict between the two Houses of Parliament owing to the Lords' amendment of the Irish Land Bill, has been avoided by mutual concessions.

New York, 17th

No sensible change in President Garfield's condition for past two days.

THE EXHIBITION.

Frequenters of the Plaza Once de Setiembre have been somewhat astonished at the 'statu quo' of the Exhibition works for the last month, and many surmised that there was another hitch in the business, and that this long-talked-of Exhibition would have to be postponed for another year; however, they counted without their host. The works have been at a stand-still merely pending the calling for bids from contractors. Yesterday the bids were opened in the saloons of the Colon by the Exhibition Committee, and the public will in a few days see the works begun, the plan of the edifice having been already published and given round.

Exhibitions in Buenos Ayres have always proved a success, and we see no reason to doubt the result of the present one; the enterprize is carried out by a company formed for the purpose whose share capital, although but one million, will prove ample, owing to the generous support which the National Government has promised. All the shares of the Exhibition Company are subscribed for and they can only be purchased to-day at a handsome premium.

Merchants and others would do well to avail of the opportunity to exhibit their wares; and we have reason to know that in the line of foreign prize cattle there will be exhibitors from all parts of Europe. Space seems to be the essential, and we recommend all to apply in time, as there will evidently be a squeeze.

The pavement of Calle Rivadavia west of Calle Callao is so shocking that much of the success of this exhibition will depend on the Lord Mayor, and all the street must be 'adoquinado' up to the Plaza before the inauguration in February. The matter is now before the Municipality, and meets with some difficulty owing to Congress not having passed the law for 'adoquinaring' the city; but we have no doubt Mr Alvear will overcome this difficulty and have this great highway paved in time for the ceremony.

Many visitors from the West Coast, from Brazil, and even from Europe and the United States are expected. The most illustrious is the Emperor of Brazil who will come incog. This being His Majesty's first visit to the Plate, he may rest assured of a hearty welcome, as in no country is Don Pedro II. more esteemed than here, where his public acts have been always watched and measured, and his wise and friendly counsel in River Plate questions thoroughly appreciated.

At the meeting yesterday nearly all the members of the Committee attended.

A number of bids for the construction and for the carpenter work were opened; the sums varied from 2½ to 3 millions, but until to-day nothing will be decided as to these bids. Next week the works of the building will be begun, and like everything in Buenos Ayres, the building promises to be extravagantly grand.

The following sub committees for the different parishes have been named, which shows how in earnest the board is to employ every measure to secure the best success.

THE "REVISTA MILITAR."

The above military and naval publication, edited by Messrs. Jacobsen and Co, is certainly a credit, both to the service and to the publisher. Printed on excellent paper, comprising diagrams, plans etc., it must meet with deserved success. It would be a happy circumstance if every Argentine officer were a subscriber and duly studied and digested the varied contents of this review. Apart from the usual interest it excites, we note a special engraving of the steel Argentine corvette Admiral Brown, accompanied with a detailed description of the iron-clad: it is useless to recapitulate same, since the subject is already threadbare: it is to be hoped that the right men will man the new war vessel.

Mr Angel Carranza continues his interesting history of the naval campaigns of the Republic, bringing to light a novel side of Argentine annals. The *Revista* is worth filing for the sake of these descriptions of hostilities on water in the early history of the Republic. It is a pleasure to think that the commanding figure in naval warfare on these seas is that of a countryman, old Admiral Brown.

There is a long article on naval tactics, taken from an English publication, with some very well-timed remarks on the modern construction of ships of war. The conclusion come to points to the folly of constructing such huge masses of iron like the Dandolo and Italia; the very bulk of these ironclads constitutes their weakness. Mr Brassey stated the little advisableness of constructing ironclads of over 9,000 tons. Strategy, tactics, and naval fights are touched upon, but up to the present but little experience can be brought to bear on same.

The Argentine War Office might well read the chapter on the sanitary service in the German army; the Germans are the models of all others in this respect. Often in the reviews in our plazas we see soldiers with handkerchiefs and bandages; such a state of affairs should not be tolerated. The men should all be in sound condition, at least appearances should be saved. The defect might be easily remedied, as there is very little sickness amongst the troops.

An elaborate article follows on the 'Etats Majeurs' of the different European armies. Although many may think that there are plenty, if not too many, superior officers in the Argentine service, doubts as to an effective number arise whilst perusing this chapter. In fact the army of the Republic in a foreign war is the National Guard, and to judge by the late figures of this 'corps d'armee', it would appear that there are far from sufficient numbers of officers to lead them. Nevertheless, there is no necessity for increasing their numbers.

Amongst many other items we note the following eloquent figures of expenses of armies in Europe:—

	Francs
Germany	402,400,000
Russia	725,000,000
Italy	176,250,000
France	572,500,000
Turkey	150,000,000
Greece	11,250,000
Total	2,037,400,000

Nothing less than something above 2,000 millions to maintain the armies of the above countries.

LATEST FROM CHILE.

Valparaiso, July 30th.

Copious rain fell on Sunday night and throughout Monday, and on the latter day, at 3 p.m., there arose a furious storm of wind from the north-west, which rapidly took the form of a violent hurricane. In half an hour after the outburst of the wind there was a terrific 'norther' in the bay, and appearances seemed to portend serious disasters to the shipping in the harbour: fortunately, however, the casualties were few, the wind having fallen almost to a calm before nightfall. The steamer Imperial, which was ready to leave the port, was in considerable danger, at one time, of being thrown on to the breakwater. She had been cast off from the buoy, but before she could get sufficient way on, the violence of the waves threw her broadside on to the sea, and in this position she passed in dangerous proximity the steamers Guayacan and Callao. The steamer still refusing to answer her helm the anchors were let go, but owing to the small quantity of chain that could be paid

THE GLYCERINE DIP can be used with **COLD WATER.** Sole Agents **MOORE & TUDOR,** Maipu 93 and 95. Beware of imitations and falsification

out, she still ran considerable risk of dragging down on to the breakwater. Under these circumstances a signal of distress was hoisted, and timely assistance having been rendered from shore she was made fast to a couple of buoys, and in this manner, and with the help of her steam, she was enabled to ride out the gale in safety. The ship Inspector was in collision with the George Peabody, doing the latter some damage. On shore considerable damage was done to roofs, some 30 sheets of iron being stripped from that of the Cardonal market alone, and in all parts of the city were to be heard the customary lamentations caused by defective roofs, drains and spouting.

The Intendente has appointed a committee of five medical gentlemen to report upon the best means for grappling with what has been termed the 'social evil.'

At a meeting of the Municipality on the 27th the Intendente stated that on an early day he would submit to the Board a plan for rebuilding the theatre.

A man was found drowned in the Cajilla ditch on Monday morning, into which he is supposed to have fallen on the previous evening.

The Oriental Exhibition continues to attract an extraordinary number of visitors, and if the weather should prove fine to-morrow, the attendance will probably be more numerous than on any previous occasion, as in addition to the natural attractions of the beautiful collection of objects of arts and utility, the proprietors have generously provided a still more attractive one in the shape of the donation of to-morrow's receipts at the door to the hospital.

On the morning of the 22nd an Italian, named Revello, who was employed as shopkeeper in a 'despacho' on the Baron hill, was found murdered on the premises. The unfortunate victim was killed by a fearful stab in the head, and it is supposed that the deed was perpetrated between ten and eleven on the night of the 21st. The murderers were evidently bent on plunder, as two boxes were found burst open and emptied of their contents, and a considerable quantity of articles of various kinds was discovered to be missing from the shop. Two men have been apprehended on suspicion of being concerned in the affair.

On the night of the 21st, or early on the 22nd, the store of Mr F. Kuppers, Calle de Cochrane, was broken into and a box containing 110 dollars was stolen. A coachman has been arrested on suspicion of knowing something of the affair.

A fire broke out in a clothing store in the Calle San Juan de Dios at 1.30 a.m. yesterday morning, and the flames spread with such rapidity that a considerable loss of property ensued. At one time it was feared that the conflagration would spread to the other side of the street, the overhanging balcony of a house opposite having caught fire, but fortunately the firemen were on the spot in time to extinguish the flames before much damage was done. In the meantime the fire continued to spread rapidly from the spot where it originated, and it was not until half-past five that it was got under; the valuable block in which is situated the Odeon being with difficulty saved. In the upper story of the building in which the fire originated there resided the widow of the heroic Captain Prat, who had scarcely time to save a portrait and some other mementos of her husband, before the house was completely enveloped in flames. The adjoining house was occupied by Dn. Oscar Herrera, who likewise had no time to save anything. In the lower storey there was a haberdasher's shop, a furniture store and a gentleman's outfitting establishment, nearly all the contents of the three establishments being destroyed. The fire originated in the last-named store. In the next building there resided in the upper storey Mr. W. Wilms, who saved a part of his furniture. In the lower storey were situated the general store of Mr. J. Caro, bookstore and printing-office of Dn. Julio Real y Prado, and the shop of Dn. Claudio de la Vega. The greater part of the contents of these establishments were saved. Some of the occupiers of the adjoining premises have suffered some loss from fire and water. The origin of the fire is unknown, but the owner of the store where it commenced is in custody pending an investigation. The companies affected by the fire according to a list, not yet complete, furnished to the police are:—Confiance, $10,000; Metropole, $19,600; Union Chilena, $17,000; North British, $5,009; London, Liverpool and Globe, $5,000: Sun, $5,000; Royal, $5,000; and Hamburg, $20,000. Since writing the above we learn that unlimited bail was offered yesterday for the appearance of the owner of the shop in which the fire originated, so that it is probable that by this time he is released from custody.

In Santiago del Estere felling 'quebracho,' to extract tanning acid from it, is about to be undertaken on a large scale. The new chemical chromo process of tanning, which we described some days ago, will not improve the demand for tanning bark.

IMPORTANT FROM SALTA.

In a private correspondence directed to the Director of the Agricultural Department of the Salteño by an esteemed lawyer, Dr Don Abraham Echaza, we find the following interesting data:—

"I am glad to hear that you now superintend the 3 de Febrero Park; I will send you seed of very fine trees for the park.

"As Salta is a mountainous province, it enjoys all the climates and necessary topographical positions which nature demands for the production of all the varieties of the vegetable kingdom. A naturalist might reap a rich harvest of varieties of plants, in the valleys, on the hills and mountains, in the dry and damp parts of Salta.

"There are magnificent picot trees, just imagine a Lapacho in your park? This tree is larger than the greatest ombus; in summer it is covered with beautiful green leaves, and in winter it loses same, but, strange to say, begins to be covered with beautiful clusters of flowers, hanging like bells.

"It forms one immense bouquet, and the trunks of trees cannot be discerned from a distance, so numerous are the flowers. How much attention it would attract where you live?

"The Tarco is an equally noble tree; it grows artistically, if only well directed. In my opinion it is far superior to the Araucaria; the leaf of the tree is beautiful and does not fall in winter, although during that period, like the Lapacho, it is covered with clusters of flowers, which have a beautiful effect; it is a very large tree.

"The Molle is also well shaped but the enumeration of all the trees would be too extensive; the mato, the tipa, the arco, the cedar, certain varieties of the Ceibo, etc. As contrasts, some like the Yuschan; owing to their immense dimensions and the beauty of their flowers, they would attract much attention and be important for the studies of arboriculture and botany in general.

"Forest flowers and arbustes are simply innumerable. There are millions of beautiful creepers. I might mention the Bejuco, which is a magnificent creeper and a sovereign cure for all viper's bites. The Indians of the Chaco use this medicament, and its infallible results are evidenced daily in the province. The Indians have a legend referring to the discovery of this plant.

"As an amateur I take much interest in these matters, and I may, therefore, be of some use to you. I will already begin by sending correspondence to the *Boletin* of the Agricultural Department."

EDITOR'S TABLE.

The delightful dash of rain on Thursday night freshened up everything, and the high temperature and cloudy sky yesterday warranted the hope that there is more 'agua' coming. The downpour was heaviest about 2 o'clock a.m. The amateurs had a narrow escape of a rainy night. When congratulating Mr. William Martin yesterday on the fresh laurels he won on Wednesday night, he told us that in eight years the amateurs have never had to complain of the Clerk of the Weather on the nights they performed. 'Martin's weather' is now synonymous with 'Queen's weather.'

Much satisfaction was expressed yesterday in domestic circles at the wise decision of the Municipality to rescind the Servants' Registration edict. All the intended meetings and protests against the measure may now be abandoned as superfluous.

We are requested to announce that a collection of 'Peter's Pence' will be made at the Mass at the Irish Convent to-morrow (Sunday) morning, at 9 o'clock.

How great events spring from trifling causes has again been exemplified in the Tunis Question. Our London colleague the *World* says—"It is a curious fact that the French occupation of Tunis is due to a decision of Vice-Chancellor Malins. There was a railroad there belonging to an English company. Being bankrupt it found its way into Chancery. On this the Italian Government put forth one Rubattino to make a bid for it. On this the French Government put forward a Frenchman to outbid Rubattino. The latter asserted that he had signed a contract for the purchase. The case came before Vice-Chancellor Malins, and he ordered the railroad to be up to tender and sold to the highest bidder. Rubattino outbid the Frenchman, and he or rather the Italian Government, became its possessor. On this the French applied for a concession for another railroad, which was refused by the Bey. Italian influence now became predominant at Tunis, and every opposition was made to French enterprise. This aroused the Gallic ire, and the result is that Tunis is now under a French Protectorate."

Another fashionable ball is announced for Monday next, given by Sr. Berdier. Seldom has the Buenos Aires 'cream' been so gay as at present.

We give the latest news from Chile in another column. The question of the day there now is Immigration—German immigration, as the Chilenos declare that the Teutonic element is the best of all for new settlers, and they do not care for any other.

There will be Mass, but no Sermon in English, to-morrow at San Roque Church.

There was a demi-semi panic in Montevideo city on Thursday and a full quaver on the Bolsa owing to the rumours of invasion by the Latoristas. The whole thing, however, turned out to be a crotchet of the 'Bears' who succeeded in driving Amortizables down 1½ per cent, on the strength of the Minister of War having been seen in the office of the Telegrafo Oriental. It has always been the easiest thing in life to knock the bottom out of the Montevidean stock and share tub.

The *Nacional's* telegram from Montevideo last night confirms the rumours of invasion. Four hundred patriots have 'demonstrated' at Salto. Troops have been sent to meet them.

Ayacucho seems to be rather a hot corner for editors. We note telegrams saying that another of our colleagues there (the editor of the *Justicia*) is in some trouble, owing to sticking too literally to the maxim 'Fiat Justicia ruat coelum.'

Mrs de Passo has been appointed Segunda Gefe in the National Telegraph office at Jujuy, of which her husband is chief. We hope to see more lady telegraph clerks appointed. In London we saw 1400 of them at work in one room in the General Post office, a most striking and pleasing sight.

A morning colleague asserts that at Mr Alvear's ball the other night there was one lady in the room whose jewels were worth 2,000,000 of paper dollars, if they were worth anything.

There is a letter for Mr Samuel Hawkins in care of the Passionist Fathers, at No. 27 Calle Alsina.

We perceive that the Syndicate of the Bolsa has admitted Cordoba Bonds, six per cents, on the official list.

The Arrecifes police have as yet been unable to lay hands on the two gauchos who so cruelly murdered Mr. Furtado de Castro in the open camp some days ago.

Six new lawyers got their 'occalade' from the Supreme Court on Thursday. It would be interesting to know how many barristers there are in all in this country.

An Italian living in Calle Caseros blew his brains out yesterday with a double-barreled gun, the cause being jealousy of his wife, who had left him.

The debate on the new Municipal Law began in Congress yesterday, and will probably be a long one.

The demands for space at the Continental Exhibition are so numerous that the Committee have decided that the building shall be of two stories, thus doubling the accommodation available. An excellent move.

Rumours of an impending change in the National Cabinet were again rife yesterday, but they are probably premature.

A Bill to extend the East Argentine Railway in two directions—to Mercedes and to Paso de los Libres—from Monte Caseros, was introduced in the National Senate yesterday by four members.

The breeze between the National and Provincial Governments about the latter having installed the law courts in the Casa de Justicia is over. It appears that the Provincial Exchequer saves $240,000 m|c annually by the Courts being allowed to occupy the Cabildo. There is not a word said about the new capital for the province, although the time allowed for selecting one will expire early next month.

Our newspaper files from the Interior are 'summamente' uninteresting, their proportion of news to wishy-washy politics being even smaller than the ratio of bread to sack in Jack Falstaff's posset.

The *Republica* published yesterday a telegram from New York, stating that President Garfield's life is despaired of.

Telegrams from Bahia Blanca announce 300 Indians prowling about at Rincon Grande, on the Colorado.

We are requested to remind members of the Barracas Institute that the half-yearly general meeting will take place this (Saturday) evening at eight o'clock.

The Census Commissioners have sent a circular to all the Justices of Peace and Mayors of camp Municipalities, ordering them to send in all the pastoral, industrial and other statistics they can collect, in addition to those of the Population. We have frequently demanded this step in the interest of the public and must congratulate the Census Commissioners on having taken it.

'Will Honeycomb' has favoured us with a most interesting communication in reference to the amateur performance on Wednesday. We hold it for to-morrow's issue.

We presume that our turf friends have not forgotten that the entries for the races at Lujan on the 8th prox. are to be opened to-night, at the Minerva, at 8 o'clock.

Flour and wheat men will be interested in the following reports of the expected harvest in Europe and the United States: Heavy deficit in the latter country; England very good; France and Germany average: Austria-Hungary same as last year; Belgium, Italy, Holland Switzerland and Spain middling.

We perceive that Mr Grace's well known school has been removed to No 595 Calle Corrientes, where there is magnificent accommodation for an educational establishment—three large patios, a fine 'quinta,' a first class school room, and everything in keeping. We wish Mr Grace every success in his new premises.

The Cabildo clock is going to the dogs. It appears that the weights are of sand, and every change in the weather (especially in the direction of humidity) makes the clock go faster or slower. Are we never to do any mortal thing properly in these regions?

Parsley and butter is a capital sauce for salmon or any other fish, but 'cicuta' and butter is good for nothing. A Tandil cook was near sending a whole family into the next world before their time last week, owing to thinking that 'cicuta' would answer just as well as parsley for making sauce for the fish at dinner, but it didn't, and but that there was a doctor within hail, the local undertaker would have been in requisition next day.

Patacons	25.55
Cedulas A	99¾
National Bank Shares..	115½
Old Gas Co. Shares	2200

The market opened this morning with gold very weak, and sellers on long dates at 25.40, prices for cash opened at 25.55, dropped to 25.50, and closed at 25.55, only 25,000 sold cash. For Saturday 38,500 at same rates, for end of month 165,000 at 25.50-55, and on long dates 175,000 at 25.40-45. In gold there is really not a particle of speculation going on, and people only sell on time according as the brokers for the houses ask to secure lots for business purposes.

Cedulas were in strong demand to-day and prices have again resumed par. 30,000 were sold cash, opening at 99¾, rising to 99⅞ and closing at 99¾. For end of month 18,000 at 99¾, and for Sept. 41,000 at 100 disponible. Total sales, 89,000, which is a small day's business.

National Bank Shares mock the bears, and although it was freely said the Italian King was selling out, prices were firm as a rock. The generally accepted version is that at the close of the month 20,000 shares have to be paid for or down comes the market, but they all seem to think that the money is already engaged, and this is what has given such buoyancy to the market. 390 shares were sold cash, opening at 115 and closing at 115½. For end of month 1,950 sold, opening at 115, dropping to 114 and closing at 115½. For September 2,000, opening at 113, dropping to 112½ and closing at 113¾.

Gas Shares stronger than ever; 130 shares sold to-day at 2,200, and 2,250 offered for a good lot and declined. Some very strong buyers in the market, but holders are in no hurry to part with so splendid a stock.

The sales at the ring were—
For cash 25,000 25.55-50-55
For August 20th 38,500 25.55-50-55

For Sept. 30th 35,000 25.40
For Oct. 31st 65,000 25.40
For Nov. 30th 25,000 25.40
For Dec. 15th 15,000 25.45
For Dec. 31st 25,000 25.40
Sales, 403,500.
Cedulas—

For Aug. 31st A 18,000 99¾.
For Sept 10th D 21,000 100

Sales, 89,000.
Nat. Bank Shares—

Gold at afterhours, owing to the news of the raising of the Bank of England rate to 3 per cent, ruled a little firmer, but at 4 o'clock the market lost all its stiffness and sellers were again offering for to-morrow and end of month at 25.60.

National Bank Shares ruled very active and prices advanced to 116 for end of month, and (15½ cash, and closed slightly lower say 114½ for end of month, buyers for Sept. at 114.

Cedulas at afterhours still firmer, and many buyers offering 100 for end of month; few sellers.

The German steamer America has engaged:
1500 bales
And in Montevideo takes the cargo of the George Mills
18000 salted hides
1700 bales Braz. tobacco

Discounts rule at 7 to 8 per cent, both gold and paper, and the banks discounting first class paper at these rates.

The Minister of the Interior has ordered a free farm of 220 acres of land in the Alvear Colony, Entre Rios, to be given to the Irish emigrant family sent out by Dean Dillon.

The Teniers leaves on 31st for Bordeaux direct, and has already engaged 800 bales and 5000 bags maize.

In wool to-day nothing to report.

Messrs Tomkinson and Dungey, shipbrokers, are again to the front, and have made the following important charters—

British barque Royal Tar, to load lumber in Fernandino for Montevideo—reserved rates.

Italian barque Britannia, to load 400 tons maize for Cape, £550 s|g.

American barque Alice, to load mules at Rosario for Pernambuco at £3 3s. per head.

Norwegian barque Nordcap, to load lumber in Brunswick for Montevideo and orders at $f.13.19.

The Celestino, in to-day from Boston, comes to Shaw with lumber, already sold. Also the lumber per Bella Hook is sold.

The rise in the Bank of England rate of interest to 3 o/o was only known on 'Change five minutes before the ring closed; it had the immediate effect of hardening a little the gold market, say 5 cents, but nothing more. Many parties attach great importance to this news from London, but had they read the last London financial papers they would have been well prepared for this news, as it is the sequel of the new Italian loan, which absorbs 14 millions sterling between now and January, as will be seen from the terms of this loan which we give hereunder. So great is the plethora of money in the London market at present that the Italian loan has proved rather a boon to the market than otherwise, and we cannot think that it will have any great effect out here. Money is flowing very strong from Europe to this|or is it likely that this current will be checked in view of the great fertility of our lands and their extremely low price, when compared with those of other countries.

It is rumoured on 'Change that the new Argentine loan is selling in London at 86, which shows that the launching of this loan at 82½ out here was not at all so far out of the way as people thought.

Mr Hector Mackern, who has returned from Europe, was welcomed on 'Change; he reports having seen many River Plate friends in London, and all doing well and prospering.

To-day the Minister of the Interior held another interview with Mr Jones and others respecting the Welsh colonists. The National Government takes a great interest in the success of the newly arrived Welsh colonists, and those at present in the city all go forward in the Villarino. The Government agrimenser, Mr Serna, goes with the party to measure out the new farms; thus it is to be hoped as Mr Jones, the pioneer of Welshmen in the R Plate, goes in the Villarino, all will fall out well, but these Welshmen have been over a month here in the town doing nothing, and although supported by the Government still they complain greatly of the delay. Information has been received of another batch of 50 now on the way out, and from what we hear there will be a steady stream of Welshmen to this country all during the spring and summer. Mr Albert Fernandez attended the meeting to-day and offered the Minister to put on a line of sailing vessels that would land the colonists at Chubut and not at the new bay, as is the case with the Villarino.

The sale of 3 sq. leagues of land in Entre Rios, on the river Cle, all wire fenced, with estancia house and puestos and with 1200 head of horned cattle and 16,000 sheep, all for 2 millions currency is reported, Dn Mariano Unzue, buyer. We consider this a splendid purchase, as the land on the Cle is regarded as the best in that province. Several Entre Rios estancias are offering in this market and at what appears to us to be very cheap rates. Five sq. leagues of land on the Eastern Arg. Railway are offering at 4,000 $f. per league. Did the Correntino authorities execute the assassins of the two Scotch farmers, it is possible these lands would at once find buyers, but no man will put a paper dollar into those camps, stained with the blood of these unfortunate farmers, and whose assassins although caught so long ago, are still in prison when they should have been executed months ago. An old friend, who has just come back from England, assures us that when the news of that terrible double murder reached England it produced a sensation, and that if Argentines want to see their stocks rise in London the first and best measure to adopt is to execute the murderers at present in prison. The execution of the murderers of McDonald and Guthrie would put Argentine Bonds up in London 4 per cent.

On the 29th inst. will be put up for auction by Messrs Baltar & Quesada four leagues of very first class camp close to Puan and in the Province of Buenos Aires. This is a rare opportunity for campmen, as we hear the land was selected and obtained some few years back in preference to any South. It has great natural advantages rarely to be met with, possessing amongst others lagunas of sweet water. The grasses are suitable in parts for cattle, in others for sheep, and throughout superior. This camp is some leagues nearer Bahia Blanca than the Curumulan lands just purchased by Mr E Casey. With such an enterprising neighbour a rapid advance in the value of adjacent property may be counted on, and our advice to estancieros is not to let such a good chance as this slip through their fingers.

London, July 9th, 1881.

We have received the following for publication in this column:—

B. Aires, Aug. 18th, 1881.

Dear *Standard*,

When I sent you my to-day's letter I had not yet read your leader on the Italian Conversion, which you commend to my attentive reading; my opinion about the matter is as follows:—

Great politicians and generals are nearly always bad financiers, as commerce and finance must be learned practically, and the great merchants and bankers, who would be able to give them a sound advice, generally look out too sharp for their own pockets.

If Italy makes a loan at a shave of 10 o/o besides the interests to be able to make the conversion, I consider the measure nearly as unwholesome and ridiculous as if we did the same here, although it will suit the bankers of course.

It would lead me too far to enter upon the differences between an old country and a new one like ours, and I only will mention one fact to prove that great statesmen, when making financial operations, do not always hit the nail on the head.

Bismarck introduced in 1873 the gold standard, which had before only existed in the 123rd part of Germany [Bremen]; in consequence 1,090 millions reichsmark silver were withdrawn from circulation, of which 567 millions were sold.

When he saw that the fiscal had lost by this operation 96 millions reichsmark [equal 23 million patacons!] and another 60 to 75 millions would be lost by continuing the conversion, he stopped the same in June 1879, and now nobody in Germany knows whether they have the gold or silver standard or bi-metallism. Something of the kind might happen also here and in Italy.

Yours truly,
GERMAN SUBSCRIBER.

En nuestra casa San Martin No 51
El Martes 20 de September
A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo dicimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secrito de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion de manera que el primera que compre, sea el primero que elija y asi sucesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

Remataremos a la mas alta postura y dinero de contado por orden del Sr. D. Narciso Vivot, el primer lote que presenta en nuestro mercado compuesto de 25 carneros sangre pura Negrete, procedentes de su establecimiento El Retiro en Chascomus.

Estos animales fueron esquilados en Diciembre ppdo., por consiguiente solo tienen 3 meses de lana y son de 24 meses de edad

El origen de la majada Negrete del Sr Vivot es de la primera y mas acreditada Cabaña de su tiempo, 'Poronguitos,' de la propiedad del Sr. Don Claudio F. Stegman.

El Sr. Vivot compro en el año 1863 al Sr. Stegman una de sus mejores majadas Negrete, la que ha conservado siempre pura, haciendola servir con carneros de las mejores cabañas Negretes Europeas, como ser la del Sr Mass en Kenslin, Gadegast etc., habiendo comprado siempre carneros de muy alto precio como lo han podido observar los que concurren a los remates de animales de raza.

Los carneros que ofrecemos en venta son todos descendientes de carneros de la primer Cabana Negrete que hay en Europa, la del Sr. Mass, en Kenslin, lo que hace inutil toda recomendacion.

Los carneros pueden examinarse dias antes del remate en nuestra casa Alsina 78.

7 Esplendidos Moruecos Sajones procedentes de la cabaña del Sr. D. R. Gadegast en Thal cerca de Oschatz (Sajonia) cuna de la oveja fina y noble por excelencia, segun lo escribe al profesor Dr J Bohur, del Instituto Agronomico de Leipzig, criador practico y quien eligio el magnifico carnero para el Senor Lozano, que hace poco llamo la atencion de los inteligentes por sus bellas formas y magnifico vellon.

Para los que buscan finura, tupidez y nervio en el vellon, como tambien las bellas formas en el animal, dificilmente encontraran tipos mas perfectos que estos carneros, que se ofrecen por primera en remate en Buenos Aires.

Ademas de todo esto la competencia del Sr D Enrique Meyer en la cria y mejoramiento de la especie lanar es una garantia para los criadores, en cuanto a que llevaran animales de primer orden.

3 Moruecos Negretes de la afamada cabana de Guillermo Maas en Kentzlin sobre cuyo origen es inutil decir una palabra pues es reputada la primer cabana en su especie en el mundo.

La clasificacion es la siguiente:

Remataremos a la mas alta postura y dinero de contado, por orden de las senores Amado e hijos y pertenecientes a su cabana Laguna del Trigo partido de las Flores.

25 carneros Rambouillet

Algunos de ellos hijos del carnero Thiere, importado por los Senores Amadeo, de la cabana Imperial y uno de los mejores animales que han salido de aquel establecimiento para nuestro pais, segun datos directos que tenemos de la cabana.

En *El Standard* del 24 de Setiembre del ano pasado se encuentran datos interesantes sobre este esplendido reproductor.

La cabana de los Srs Amadeo e hijos fue fundada hace mas de 23 anos con animales elegidos en Francia y para que los Senores estancieros, deseosos de obtener animales de buen y puro origin, pueden formarse una idea, damos aqui el detalle de las varias espediciones que han sido hechas desde Europa por cuenta de la cabana Laguna del Trigo.

Origin de la cabaña de los Sres Amadeo

1857—Recibidos en Francia, enviados por D Saturnino Soriano [padre] y hechos elegir a satisfaccion por intermedio del senor Duplose, ocho animales.

En este lote vino el famoso carnero Luis Felipe que muchas personas han conocido y apreciado.

1859—Recibidos por la fragata Panama, enviados y hechos elegir con especial cuidado en la cabana Imperial por los senores Masnerau Dupont en Paris, 3 animales.

1860—Encargados con especial moderacion y recibidos en la fragata Alix por intermedio de los Srs Diehl, Fernau y Ca 20 animales.

1861—Lecibidos por la fragate Panama y pedidos a los mismos Srs Dhiel, Fernau y Ca con recomendacion que fuesen iguales a las magnificas borregas anteriores, 20 animales y llegaron 24 animales.

1861—Pedido a los Srs J B Vignal y Ca y recibidos por el Buffon 8 animales.

1864—Recibidos por el Jaques Coeur y hechos elegir con esmero en la cabana Imperial por medio de los Srs Charias, Offman y Ca de Paris, 2 animales.

1876—Obsequio de nuestro amigo el Sr D Emilio Duportal, de su bien reputada cabana de San Vicente, 1 animal.

1878—Obsequio del mismo Sr Duportal y tambien de su cabana de San Vicente, un animal.

1879..Elegido y pedido por el Sr D Enrique Meyer, un notable carnero, que sirvio mucho tiempo de reproductor en la famosa cabana Rambouillet, animal que no tenia precio y solo se vendio cuando dos hijos suyos pidieron reemplazarlo, venidos por el Belgrano, por conducto de la casa de los Srs Dilleman y Ca, un animal.

Total recibidos 64 Rambouillet.

Como los Srs Amadeo e hijo nos dicen que creen pues fsu deber exhibir los titulos que tienen para ser considerados como poseedores de una cabana verdaderamente de sangre pura Rambouillet hemos publicado los datos que anteceden y que nos parecen titulos sobrados para elevarno de todo otro elogio.

Ademas los Srs estancieros los veran 5 dias antes de remate y juzgaran si tienen o no las condiciones del puro merino frances.

El 20 del corriente estaran en nuestra casa Alsina 78.

PARIS LETTER.

(From our own Correspondent.)

The lamentable spectacle alluded to by Dr Watt, where children of one family fall out and chide and fight, is now to be witnessed in the case of the Latin sisters, France and Italy. The journals of the latter country seem to pooh-pooh the French and their military abilities, while Paris papers playfully chaff the Italians, banter their drawbacks, counsel them to keep quiet, make money and convert their paper currency. Something like open war reigns at Marseilles, where in a population of 375,000 the Italian colony numbers 70,000. The killing and wounding has been pretty liberal on both sides, and though the Italian Club was wrong to hiss the passing soldiers on their return from a campaign, where the butcher's bill was so small, and the sons of Mars deprived of experiencing glory's thrill, yet the city roughs were quite inexcusable to hound down isolated or petty groups of Italians. However, it must not be forgotten that in the South blood rapidly mounts to boiling point, and knives replace words. The city too is administered by a very radical Municipality, who set even the Government, and its representative the Prefect, at defiance. Since 1870 the animosity between France and Italy, though veneered with external gush and windy fraternity, has not been the less a fact. France will never forgive Italy for not joining her to resist the German invasion, no more than she will pardon England for her abstention. The Italians again are annoyed in being continually told that they owe their unity exclusively to the French, whose conduct in freeing the Peninsula from the Alps to the Adriatic was a model of disinterestedness The Italians reply, we paid the bill by the cession of Savoy and Nice; that Bismarck, when the Prussians threatened Vienna, enabled the Austrian yoke to be finally shaken off; that it was Bismarck again, by invading France, who permitted the Italians to put an end to the occupation of Rome, which the Republic of 1849 had decreed. To all this has to be added the Tunisian rub. The caricature journals made a mistake in selecting recently for their subject Garibaldi and his rheumatisms, flannels and liniments, because he wrote a letter against French doings in Tunisia, and about as important as the old General's lucubrations on bishops, priests and deacons. Yet Garibaldi fought well at Dijon in 1870 for France, and his volunteers claim to have taken from the Germans the only flag captured from the enemy during the invasion. The French ought not to have short memories, and display more of their natural generosity. But Gambetta has over and over and over again been taunted on his entire freedom from Gaulish origin. Indeed the Comte de Chambord, according to a republican heraldic authority, has not a single drop of blood of that popular old sinner, Henry IV., in his veins.

Not the slightest desire is exhibited by the nation for the renewal of the Treaty of Commerce with England. The negotiation is but love's labor lost. Even the hazy ideas that existed here and there on the subject of free trade have vanished. The journal of Orleanism, the *Soleil*, is very loud in proclaiming that the Cobden treaty was the ruin of France, and that it is high time for the latter to terminate her weakness for generous sacrifices. This may be making capital in advance for the political coming of the duc d'Orleans. It is a notorious fact, that Gambetta has never yet delivered an address either on free trade or protection, and that significant silence is a fair barometer of public opinion on the subject.

Are the French dying out? That question is being seriously examined. It is certain, since 30 years marriages and births have diminished in alarming proportions; the death rate is smaller, because well-being more generally reigns, and as fewer children are born, there are less deaths, as infants are the cause of swollen bills of mortality. It has been calculated, that one-thirtieth of the population of France consists of foreign immigrants, chiefly Germans, Belgians, and Italians, and noted for their obedience to the law of increase and multiply; also, there are 27 deprtaments in France, where the total population is on the decline; and where an increase is to be registered such must be sought in the departments the most illiterate, or on the frontiers of Belgium, where international marriages are frequent. One sixth of the population of Paris only is purely French; it is but necessary to visit any metropolitan cemetery to note the names of families that have no longer representatives. The more people are prosperous, that is the natives, the more they are averse to children; in 35 middle and comfortable class families in Picardy, there were only 37 intants. This depopulation, by the decrease of births, is most marked in wealthy Normandy, and in the southern regions where the vineyards have been decimated by the phylloxera. It is also worthy of remark, that the number of illegitimate births has decreased; this is not to be viewed as evidence of greater morality—for if so, France from her relatively fewer natural infants, as compared with other nations, would be at the head of religious peoples; but to the circumstance that even vice or irregular unions, find children to be an encumbrance. Vice then as Virtue, has become less prolific. Since 1861, the number of marriages has decreased nine per cent in the country, and no French lady ever takes to heart the question: 'Why don't the men propose mamma?'

At the present moment if a citizen or sojourner desires to be considered anybody, it is necessary to quit Paris, for Vichy, Dieppe, Royan or Switzerland. The theatres, save a few exceptions, are closed: Mabille is in its dying throes. But the journalist is equal to the occasion. Installed in the suburbs, he writes eloquent descriptions about Alpine excursions, hunting bears, and chasing chamois; seated in a silent corner of a cafe, a correspondent under the 'nom de plume' of a baroness, sends a beautiful account of sunrise on the Righi; the best voyage on the borders of the Rhine has been made by a member of the Alpine club who has never quitted the capital in his life, and the most experienced guide for the coast of Normandy is an old gentleman whose excursions have never extended beyond the Bois de Boulogne. High life consists of some four dozen ladies, about whose movements the journals are constantly occupied; they are apparently neither married, nor widows, nor young girls; time seems to have no effect on them: their toilettes are quoted just like public funds; all other ladies are neglected as the farthings and fractions in a large account. Now Paris is not the less uninhabitable because its high life has flown. Since the railway station at Vesuvius has been inaugurated, descriptions of travel have lost much of their singular interest. Unless to have done the Himalaya mountains, explored the valleys of Thibet, or risked your life on the frozen summits of Mont Blanc, every reader or listener, can reply, 'I have seen all that.'

The death of Viscount de Brimont draws attention to his widow; who was Miss Mina Shepperd; her mother was a great friend of Napoleon III when an exile in England; on his becoming President of the Republic he not only requited the kindness of Mme. Shepperd, but his marriage with her daughter was for a time the subject of serious gossip. The late Emile de Girardin proposed for Miss Shepperd; on the eve of accepting his offer, she suddenly refused, and ever afterwards de Guardin kept a nicked tooth for England. What dire events from amourous causes spring. Viscount de Brimont next paid his addresses and indulged in unheard of extravagances to show he would be the pearl of husbands; he won, but shortly after the wedding, the young wife demanded and obtained a separation. She retired to live with her husband's sisters, and found happiness in their affection; she became a volunteer lay sister of charity, doing good by stealth and blushing to find it fame; she visited her ex-husband regularly as a friend, and nursed him in his last illness; perhaps the heart that once truly loved never forgot; de Girardin consulted Mme de Brimont on political matters, and her judgment had great weight with the Emperor; it was she who has the credit for deciding him to conclude the Cobden Treaty. She is profoundly read in contemporary history and philosophy. She has numerous hangers-on; the most well-known is Mme. Jacquemard, an eccentric old lady, whose daughter Jenny, the portrait painter, is to be married in a few days to Andre, the rich banker, and said to be as near to his grave as to his honeymoon; the marriage settlement he made on his betrothed was to present her with his last will and testament in her favor.

An excellent arrangement exists in the Protestant convalescent hospital at Passy; the patients, no matter what may be their social standing, and some arrive in silks and satins, others in cotton, have to don the hospitall uniform; but the novelty consists in providing that the young children can live with their mothers, in separate wards; the parents having their children near them, recover more rapidly.

Virginie Dejazet made her debut as dancer at the age of five years: she was so succesful that the stage was literally covered with oranges, cakes, and bonbons; the next day, spoiled, she refused to appear, and for 72 hours was kept on bread and water: she had a mortal dread of a gigantic grenadier, and it was his presence on the stage with a horsewhip that brought about her second appearance.

It is contemplated that since there are schools for the sons of soldiers, the same ought also to be established for the sons of artizans, so that they too could walk in the footsteps of their papas.

A builder's clerk, presumed to have received payment for several accounts, was enticed to a house of ill-fame, robbed, and murdered; his body was conveyed by a night cab, and shot down in a lonely street, the rope still round his neck. The police as usual expect to find the assassins; but no one in Paris counts upon the bobbies, so much have they been written down.

Next to piercing the Isthmus of Suez, and arranging to do the same for Panama, M. de Lesseps is proud of his young family by his second wife: during a pause the other night in the performance of the Circus, he sent them all to scamper round the arena.

It is contemplated to make no distinction in the rate of salaries of the male and female teachers of the French national schools.

In the Brewers' competition first held at Versailles, 750 persons volunteered to be tasters.

Friend to the nephew: 'Why do you shake hands so frequently with your uncle?' 'To note the state of his pulse.'
